eSafety & eSchools

Parent Workshop

Please join us in the School Hall on

Friday 8th January at 9.00am

Refreshments will be provided.

Thornton Road, Ward End, Birmingham B8 2LQ

eSchools

An Introduction for Parents

E-Schools is a new online system that teachers, pupils and parents can access from home and school.

We have successfully launched the eSchools learning platform and are looking forward to using it to enhance the following areas!

Teaching and Learning

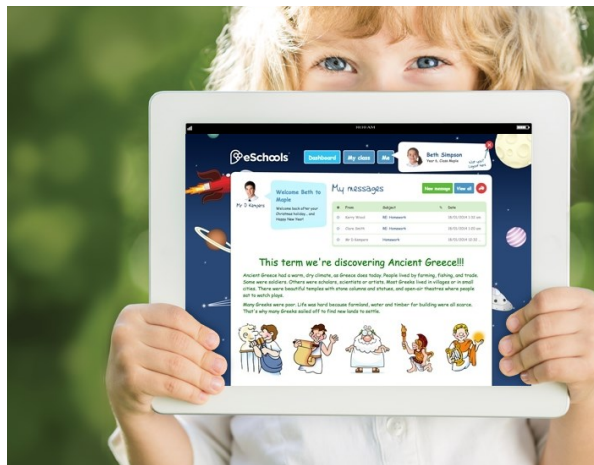

All children have been given an individual username and password for them to securely log into the eSchools learning platform. They can log in at:

www.thornton.eschools.co.uk

Children will have access to lots of great features. These include:

- Class homepages welcoming them to the platform
- Safe messaging and chat including a bad language filter. All messages, even if deleted, are able to be viewed by teachers including a report feature accessible by pupils.
- Project work including homework, quizzes and other learning tools.
- Blogs
- File storage

Passwords and usernames must be kept confidential to prevent misuse.

Parent Engagement

In the new year, as a parent/carer you will receive an individual username and password. This will give you access to important information regarding your child.

This includes:

- Attendance
- Homework and feedback
- Newsletters
- Letters sent home
- Calendar of events

You will also be able to use the eSchools Mobile App which will show you attendance information, text notifications and letters home.

Download the Parent App!

eSchools provides us with various ways to communicate with you including email, text messages, letters home and a new mobile app.

If you have an iPhone or Android phone you can also download the Parent App and receive notifications directly from the School Office.

Download the eSchools app from either the Apple App Store (iPhone) or Google Play (Android) and log-in using your username and password.

Once logged in to the app, you will be able to view your child's attendance, receive text notifications from their school along with the ability to view letters that have been sent home.
