Activity 5: Show what you know

Can you create an e safety poster, showing other children how to stay safe online?

Answers:

Activity 2: Personal information

When you are posting anything online, you should never give out:

- Your name
- Where you live
- Your age
- Your school
- Phone number
- Username and password
- Pictures of yourself, friends or family

Activity 3: Staying safe online

1. What should you do if a stranger is sending you messages?

You should tell an adult and also block the person. If they send nasty messages, you can also report them.

2. Why did Alfie and his friends begin to get nasty comments on the video?

They put the video on 'public' which meant everybody could see it and make a comment. You should always keep what you post on 'private' or 'friends only'.

3. Should Alfie have clicked the link in the comments?

No, because it can go onto something inappropriate, or download a nasty virus.

Activity 4: Protect yourself

Explain what steps Alfie has taken to stay safe.

- profile picture is an avatar, not an actual photo
- username does not feature his real name.
- Privacy set to friends only.
- Wears clothes that are not school uniform (as school uniform can reveal your school)
