

Take a piece of A4 paper and fold it along its length, about one third (or 7cm) in.

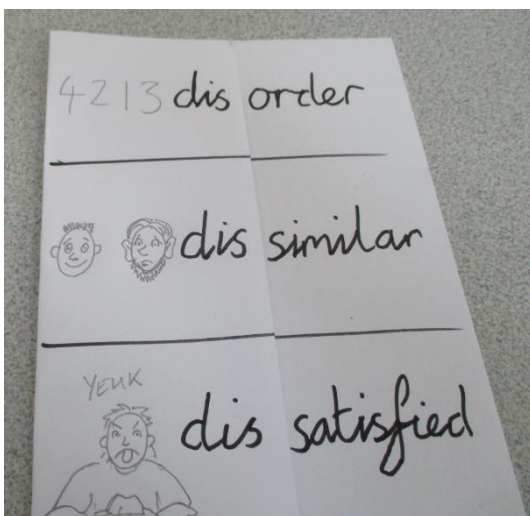

Divide the paper into five sections, drawing lines around 6cm apart. It does not need to be completely accurate.

Then write the root of five of the spellings, one per section.

Open out the fold and illustrate the meaning of each word next to the writing.

Now close the fold and write dis next to each word. Illustrate the new meaning on the outside.
