

Week 8: Art

P4L

Think back to the story. Why was Leaf collecting so many leaves?

What adjectives
would you use to
describe the leaves?
How many
adjectives can you
come up with in 1
minute?

Stomping around the forest, the creature collected leaves every day.
Big leaves and small leaves, round leaves and colourful ones.

We are going to have a go at creating our own crown of leaves for Leaf.

We are going to practice sketching different shapes and sizes of leaves.

We will then select our favourite shapes and use them to design a crown.

- Using the leaf designs in front of you, can you pick 3-6 different types of leaves and practice sketching them on a piece of paper.

- Pay attention to the types of lines used and little details that have been added.

- The leaves are made up of straight lines, curved lines, wiggly lines, thick lines, thin lines, short lines and longer lines.

Task 2

On a new page...

Turn your paper around so it is landscape...

Draw a very light, straight line across the middle of the page
(this will be the base of your crown)

We will be drawing our leaves ON TOP of the line to create our design (ideas on slide 7)

What can we use to create our design?

- Pencil
 - Pencil crayon
 - Oil pastels
 - Crayon
-
- We can even use tissue paper to add little details e.g. little berries or buds.

Here are some ideas to help you.

Review

2 stars and a wish

On a post-it note write down 2 things you've done well in your design, and one thing you could have done better. Put the post-it in your book.

I like the 3 different colours I have used because they go well together.

I like how I have used different shades of green.

I could have drawn the leaves a bit bigger so that the design is clearer.
