## Parent/Pupil Information Guide

### What is Google Classroom?

Google Classroom is a web-based learning tool that teachers use to post assignments, communicate with the children, and provide feedback on their work. Your child's teacher will be using Google Classroom whilst children are working remotely from home. This guide will provide an overview of Google classroom and introduce you to some tools that you can use to support your child's learning.

### How to access Google classroom

Children can access Google Classroom using a phone (iPhone or Android), tablet, computer (Mac, PC or Chromebook), PS4 and Xbox.

Visit the iOS App Store on your iPhone or iPad to download the Google Classroom app.

Visit Google Play on your Android phone or tablet to download the Google Classroom App.

Visit [classroom.google.com](https://classroom.google.com) on your Mac, PC, or Chromebook to log in.

Children will use their school provided email address to log in to Google Classroom and their individual password. The login details will be emailed to parents separately.

**E.g: Email:** firstname.surname@thornton.bham.sch.uk

**Password:** LWV12REG

**Please note:** it is important that parents log out of their own personal Google account on the device their child uses before logging in with their child's details. Parents do NOT have direct access to the Classroom, but are welcome to watch as their child logs in to see their learning.

You can also access Google Classroom by using the QR code provided or entering the following web address into your web browser: <http://classroom.google.com> . A parent/pupil guide has been attached with step-by step instructions on how your child can join the morning and afternoon registration/ check in and access their tasks for the day.

A link has also been uploaded onto the school website on the Remote Learning page.

## **When to join your Google Classroom Meet**
