

How can you support your child at home?

Year 4 Curriculum Spring Term

Maths

Times Tables

Children need to know their Times Tables fluently. All children have access to Times Tables Rockstars. Every child in Year 4 has a login for this in their planners. Please ensure that the children are using this regularly. By the end of Year 4, children are expected to know all their times tables! They also have a Multiplication Tables Check in June 2021 to check their progress.

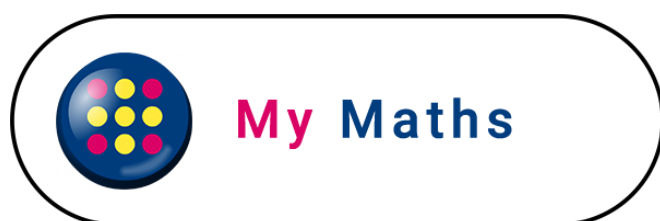

MyMaths

All children in Year 4 have a login for MyMaths in their planners. The children can access lessons online, as well as, the homework tasks that teachers assign to them. Have an explore and see the different lessons you can access.

In the Spring Term we will cover; Multiplication and Division, Area, Fractions and Decimals. Where possible please support your child.

Reading Plus

Reading Plus is a good way to develop the children's reading and comprehension skills. It also helps in motivating them to become successful readers. We highly recommend you encourage your child to read regularly. Their login details are in their planners.

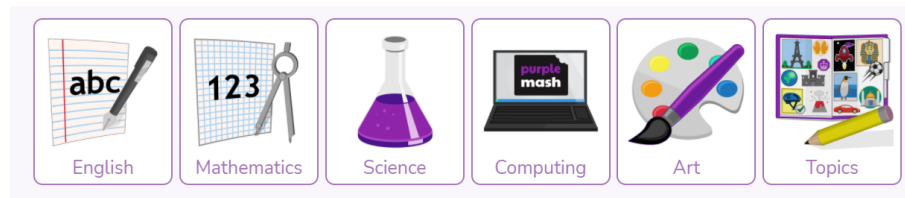

In addition to this, the children take home a reading book on a daily basis. Please find time to hear them read as well as discussing the book with them. This will have a huge impact on their learning across the curriculum. You can record a comment in their planner as well.

Purple Mash

Purple Mash is a great resource for the children to be using at home. It has English, Maths, Science, Computing, Topic and Art. Your child could look at things we have already learnt, or look at the Topic and Science section below to see what we are learning next half term.

Handwriting

In Year 4, children should be writing in joined handwriting with the letters a consistent size. Encourage your child to practice at home on a regular basis. They have a login in their planner for Letter-join to help them learn the correct joins.

Letter-join 

Topic/Science

Our new topic in Spring is all about the Anglo Saxons. We will learn how they got their name, when they travelled to England, where they settled and built their homes and how the different tribes divided the land, which is very different from today.

Our new science topic is Electricity and in lessons children will begin to understand and explore how electricity works by building simple circuits.
