### Depth task – Solve the two steps word problems below.

1. You have £5.00 in your pocket and you visit the shop. You buy a magazine for £1.50 and a book for £2.20. How much change do you have?

$$£1.50 + £2.20 = £3.70$$

$$£5.00 - £3.70 = £1.30$$

2. You have a £20 note to pay for yourself and one friend at the Cinema. The tickets cost £4.50 and you also buy a drink each for £2.00. How much do you spend at the Cinema? How much change do you receive from your £20?

$$£4.50 + £2.00 = £6.50$$

$$£20.00 - £6.50 = £13.50$$

3. You have £50 which you received in birthday money. You decide to buy a ball for £7.00, a book for £6.50 and a DVD for £12.00. How much money will you have left?
